

Social Skills Groups

Cohesively designed groups for learners with behavioral, communication and social skill needs funded through Community Foundation of Abilene.

Please join us for HLC's first Social Skills Group!

Social Skills Group Enrollment Process

We are now accepting applications for our Community Foundation funded social skill groups!

Step 1: Application

The first step in the enrollment process is the completion of an application. The information obtained through the application will assist our team in determining whether our service delivery model appears to be the best fit for your child's needs. Upon receipt of the application, our intake coordinator will be in touch with you regarding the next steps in the process. Please allow up to five business days for us to get in contact. The online form, found at: <https://members.centralreach.com/?public=true#forms/form?id=0BD77704-02D2-4F29-88F3-EA6D5D56303A> should only be used by potential clients that have not previously completed our Autism Center electronic online application. If you have completed this application, please call us at: 325-670-1348 to apply.

Step 2: Forming Groups

Based upon the information obtained from above, we will work diligently to assign students to groups with peers of similar age, interest, and need. We also will match formed groups with appropriate peer models. If there is not an opening in a group that will be beneficial for your learner, a family may be wait listed or referred to other forms of therapy, such as one-on-one center or in-home based services. We appreciate your patience and cooperation through the decision making and placement process.

HOUSTON LANTRIP CENTER
