

# BUILDING the FUTURE

The Streich Tennis Courts are home to Hardin-Simmons University's men's and women's tennis teams. The eight courts are used regularly for high stakes matches, training, and community outreach.

Due to increased roster sizes, changes in scoring systems, and demand for livestreamed matches, HSU Tennis is ready to launch new construction projects and fundraising opportunities. The three priorities for the program are the addition of livestream equipment, construction of an additional four courts, and a new clubhouse.

For sponsorship opportunities please contact Ash Wright, Vice President for Advancement and Engagement, at (325) 670-1851 or ash.wright@hsutx.edu

## LIVESTREAM

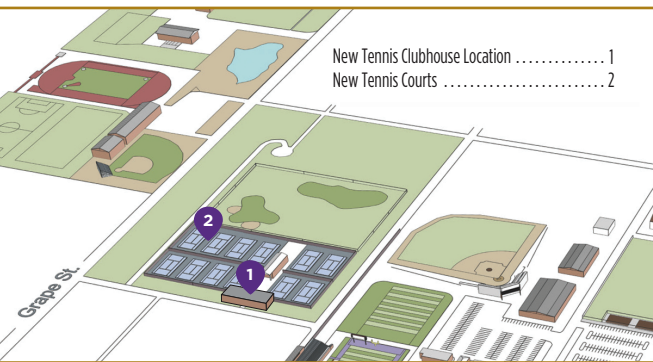

Livestreamed events are crucial for fan engagement. All courts within the HSU Complex are set to be fitted with the capability of live streaming.

## ADDITIONAL COURTS

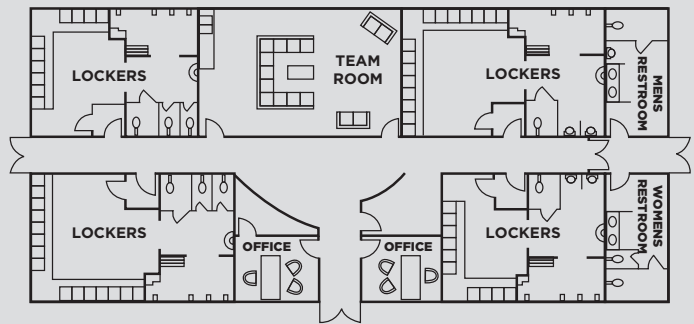

There is a need for more courts due to the growing number of athletes and changes to how matches are scored and players rotated in. The construction of four additional courts is necessary.

## NEW CLUBHOUSE

Student athletes balance their academics with rigorous training schedules. Often every minute of their day is planned. The Clubhouse will act as an extension of the tennis program, providing a dedicated space for achieving excellence, both on the court and in the classroom.

HARDIN-SIMMONS UNIVERSITY

## A SPACE *for* COMMUNITY

This beautiful facility mirrors the quality and caliber of HSU's tennis programs. Both teams have a running list of accolades and national rankings, including ASC West Division Title in 2021, 2022, and 2023 for the women and ASC West Division Title for the men in 2021 and 2023, with an ASC Conference Championship title in 2022. HSU Tennis can boast it is the only ASC program to have both men and women compete in the last three consecutive ASC Conference Championship matches.

HSU athletes balance success on the court with success in the classroom. In addition to the features that will enhance the tennis experience, like a stringing room and film room, the new Clubhouse will provide a community space with study areas and meeting spaces for both students and coaches.

### CLUBHOUSE FEATURES INCLUDE:

- PLAYER'S LOUNGE WITH FILM ROOM
- COACHES' OFFICES
- STRINGING ROOM
- STOREROOMS
- FOUR LOCKER ROOMS FOR MEN'S AND WOMEN'S HOME AND VISITING TEAMS
